

Homework 4 - Grading Guidelines

Total points: **10**

1. Correct structure of the external_PageRankFile.txt.
2. Report:
 - Steps taken to complete the assignment.
 - Explanation regarding why some pages have higher PageRank values than others.
 - Screenshots describing entire flow.
 - For each query the top ten results produced by the PageRank method and the default Lucene method.
 - Overlap graph showing the amount of overlap between the two ranking methods for each query.
3. Working source code. Points will be deducted if code is not working.
4. Radio button or some UI implementation to switch between default and PageRank algorithm rankings is present
